Survivorship And Support

Beyond providing expert breast and gynecologic cancer care, **Woman's Hospital and Mary Bird Perkins – Our Lady of the Lake Cancer Center** are united in supporting you and your family from diagnosis to survivorship. Improve your physical and emotional well-being through a number of support programs:

Strengthen

Cancer Rehabilitation Therapy

Regain strength and heal from the side effects of cancer, including pain, loss of balance, numbness or tingling, fatigue, swelling, lack of concentration, difficulty speaking or swallowing.

Covered by most insurance plans.

Woman's Center for Wellness BY APPOINTMENT – 225-924-8311

Pelvic Floor Therapy

Pelvic pain and painful intercourse are common side effects of radiation, chemotherapy and other cancer treatments. Our pelvic floor therapists will work with you in a private setting to develop a care plan that fits your schedule and achieves results.

Covered by most insurance plans.

Woman's Center for Wellness BY APPOINTMENT – 225-924-8311

Medical Exercise

This program is ideal if you have recently been discharged from physical therapy, cancer rehabilitation or if you require specialized instruction and supervision in a fitness setting. A physician referral is required.

3D Areola Tattooing

Instead of using tissue to rebuild a nipple, some women choose to have a nipple tattooed on the reconstructed breast. The most realistic way to achieve this is through 3D nipple tattooing. If reconstruction was just on one breast, our tattoo artist will match the color and shape to your existing areola. If you had bi-lateral reconstruction, we can use pre-operative photos to recreate your original areola or you can choose a new color and shape. Areola tattooing is a two-step process which includes that tattooing session and a follow up/touch up.

Uni-lateral Areola Tattoo - \$350

Bi-Lateral Areola Tattoo - \$500

Covered by some insurance plans

Breast & GYN Cancer Pavilion – Physician release required

Microblading

Have you lost your eyebrows through cancer treatment? Microblading is a semi-permanent tattoo technique where a small disposable blade known as a microblading pen is used to draw eyebrows through individual strokes that look just like real hair.

Microblading - \$400

Meditation

Mindfulness Meditation Instruction

Mindfulness meditation is the practice of using our breath to help focus our attention and calm the nervous system. It can have many cancer-fighting benefits by helping reduce stress, enhance immune function, lower blood pressure, and facilitate a sense of well-being. Individual and group instruction on how to practice walking and sitting meditations are available upon request.
