

Development Annual Report 2011  
Supporting the Community with Your Help

# Development Annual Report 2011

A Message from Lynn S. Weill

Dear Friends,

This year, we are writing another chapter in Woman's ever-growing history book. It all began with a bright idea – an idea to build a hospital solely for caring for women and infants in the community. The past 43 years have been storied, with all of life's great moments having been experienced here – from the joy that comes with new life to the renewal that comes with a second chance at life.

But Woman's has evolved to become so much more than a place focused only on delivering babies and treating cancer. Since our founders' dreams were realized, Woman's has made it a priority to address profound problems in our community that affect women and babies:

- **Poverty.** Baton Rouge has replaced New Orleans as the most populated metropolitan area in Louisiana; it is now the city with the highest concentration of poor people in the state, with a poverty rate that has soared by roughly 22 percent over the past decade.
- **Infant Prematurity.** Louisiana ranks second in the nation in low birth weight babies and infant mortality. Louisiana has the third highest rate of premature births in the country. A low breastfeeding rate compounds this problem, with only 49 percent of Louisiana mothers breastfeeding their children, compared to 75 percent nationally.
- **HIV/AIDS.** Baton Rouge has the second highest rate of new HIV/AIDS cases in the country.
- **Sexual Assault.** Approximately one in six women will be victims of sexual assault.
- **Diabetes.** Women with gestational diabetes have a 50 to 70 percent chance of developing type 2 diabetes and cardiovascular disease in the course of their lifetimes. The gestational diabetes rate in Louisiana is double the national average.
- **Breast Cancer.** Baton Rouge has the highest average annual incidence rate of breast cancer in Louisiana.

Your generosity helps us to address these healthcare challenges that plague our community, challenges that are often rooted on a deeper, socioeconomic level. For example, many women who used the Mobile Mammography Coach in recent months lost their jobs due to the weak economy – and they lost their health insurance coverage as well. Several women who take part in the Mother-to-Child HIV Transmission Prevention program were infected with the disease during their own births, and the disease threatens to deny them healthy children of their own. And most of the sick infants and children receiving pediatric home care are living in poverty.

Woman's community programs help to stop these healthcare challenges from growing into even larger long-term problems. Without your continued support, these programs could be reduced in scope or eliminated due to Medicaid reductions and state budget issues.

We could not have written Woman's incredible story thus far without the many individuals, businesses, foundations and groups that have helped us fulfill our mission, and there simply aren't enough words to describe our gratitude. We thank you and ask for your continued help in improving the health of women and infants as we have done for the past 43 years and will do for the next.

Sincerely,

Lynn S. Weill  
Vice President, Chief Development Officer

## What is Woman's worth?

What is Woman's worth to the new mother who cries tears of joy when she brings her baby girl home from the NICU? What is Woman's worth to the sick child who is able to be tucked in his own bed at home while he recovers? What is Woman's worth to the sexual assault victim who now feels comforted during her most traumatizing moment? What is Woman's worth to other women just like her, who can feel safer now that another criminal is behind bars? What is Woman's worth to the woman who couldn't afford a mammogram, whose disease was caught and treated at just the right time? What is Woman's worth to the baby who wasn't born with HIV, whose mere existence could change the world? With philanthropic support, Woman's invested more than \$27 million in 2011 through programs that address healthcare issues in our community – including \$17 million in care for medically indigent patients – but Woman's true worth to those it has helped over the past four decades cannot be quantified. What is Woman's worth to you?

## About Woman's

Woman's continues its pledge to provide "exceptional care" focused on our patients and the community. What began more than 43 years ago has become the regional leader in serving mothers, babies and women in all stages of life.

### **Pregnancy and Childbirth**

Woman's is best known for its comprehensive pregnancy and childbirth services, including high-quality labor and delivery services, exceptional care for infants, breastfeeding support and an array of educational programs. In addition, we also provide care for women experiencing high-risk pregnancies, as well as services for low birth weight babies and high-risk newborns.

### **Wellness and Prevention**

Helping women feel great and live well is one of our top priorities. Woman's offers a range of wellness programs, classes and counseling services, as well as GI endoscopy and testing for osteoporosis and heart disease. Woman's also provides extensive opportunities for mammography, not only at our main campus and Wellness Center but also throughout 18 parishes by way of our Mobile Mammography Coach.

### **Treatment and Care**

Woman's is proud to offer a multitude of services beyond childbirth. We provide women's cancer treatment; breast, gynecological and general surgery; diagnostic testing; colonoscopy; weight loss surgery; orthopedic surgery and more – all tailored to meet the specific needs of women.

### **Mission**

To improve the health of women and infants

### **Vision**

Together we are building a patient-centered community of extraordinary people and exceptional care

### **Values**

#### **Excellence**

Continually improving everything we do

#### **Commitment**

Showing pride in, loyalty to, and ownership of the mission of Woman's

#### **Innovation**

Securing our future through creating new dimensions of performance

#### **Mutual Respect**

Doing unto others as you would have them do unto you

#### **Stewardship**

Carefully and responsibly managing the resources of Woman's

#### **Sound Judgment**

Making timely decisions based on the information available

## The Schwartzenburgs

The Schwartzenburg name is synonymous with bringing thousands of babies into the world. For Dr. Ellis Schwartzenburg and his wife, Barbara, Woman's Hospital has become yet another bundle of joy in their lives; one they have seen grow to great heights over the years, not only through a dedicated staff and a focused mission, but also through philanthropic support and volunteerism.

Dr. Schwartzenburg's commitment to Woman's mission – to improve the health of women and infants – extends far beyond fulfilling his duties as an OB/GYN. He and Barbara have made significant contributions to Woman's for many years as Charter Life Members of Founders and Friends since its inception in 1999 as well as through the Annual Giving Campaign and the Woman's Victory Open golf tournament.

"Woman's Hospital is a place where many of us have experienced those true gifts in life, those being the birth of our children and grandchildren and physical healing, which we will all need at some time in our lives." Barbara said.

And when that time came for Barbara, who was diagnosed with breast cancer several years ago, she experienced firsthand the exceptional care for which Woman's is known. Serving as chair in 2011 and honorary chair in 2008, Barbara has played an integral part in the Woman's Victory Open, which raises funds for Woman's breast cancer outreach and education programs, and is always looking for more ways to get involved.

Dr. Schwartzenburg served on Woman's Board of Directors for nine years, as Chairman in 2006 and Vice-chairman in 2005. He served as Chief of Staff in 1999. He is also a member of the Woman's Hospital Foundation.

"We feel it is important to support Woman's Hospital because we want its legacy to continue, and we want it to be a place where everyone's best memories can be 'delivered' and shared," Dr. Schwartzenburg said.

## Robin and Baby Kaynan

There were no rattles waiting for him at home; there were addictive painkillers in prescription bottles – and for this innocent baby boy, a future of being raised behind one of society’s darkest doors.

Born to an OxyContin-addicted mother, Kaynan\* was removed from his mother’s custody by Child Protective Services and placed in the care of his grandmother, Robin\*, who provided him with what his biological mother could not: a safe home and tender loving care.

But all the TLC in the world couldn’t soothe the intense drug withdrawals. OxyContin is an effective, long-lasting pain reliever when used correctly under a prescribed dosage. But when the drug is snorted, smoked or injected, it produces a powerful, quick high comparable to heroin; the withdrawals are equally intense. The high is one of the highest, and the low is one of the lowest.

With his violent outbursts – including kicking, screaming and vomiting – little Kaynan felt the excruciating withdrawal pains immediately after his birth. It was overwhelming for Robin, whose only child-rearing experience was with Kaynan’s mother more than 20 years ago.

“I thought, somebody shake me and wake me up from this nightmare. And then Pediatric Home Care did that for me,” Robin said.

Their gas tanks often run on empty, but their fuel is never drained. Woman’s pediatric home health nurses are driven to help those who can’t help themselves: sick children in the Baton Rouge community.

Highly trained to provide everything from parental education to injections to wound care, these nurses are the reason why Woman’s Pediatric Home Care has one of the lowest re-hospitalization rates in the country, meaning that children get well at home and aren’t in and out of the hospital.

“These children have nowhere else to go,” Claudia Cantwell, director of Home Care, said. “We are one of the very few home health agencies that care for children, and those that do often don’t last very long. They don’t maintain their service for children because Medicaid reimbursement levels are too low to make it worth their time.”

But at Woman’s, every child, no matter their family’s financial status, is worth the time. Approximately 40 to 60 percent of Woman’s home care children are on Medicaid. Though the need for additional funds is increasing, Woman’s has not received a reimbursement increase and multiple cuts have been implemented over the past 15 years.

*On the cover: Kaynan and his grandmother, Robin.*

*\*Last name has been withheld to protect identity.*

Woman’s Pediatric Home Care is the largest provider of pediatric home health in this area, covering a 25-mile radius. Nineteen nurses make approximately 8,500 healthcare visits to children each year. With continued support from the community, Pediatric Home Care can help thousands of children grow up to be healthy adults.

Nurse Melissa Petite has been working to help Robin painstakingly wean six-week-old Kaynan off his OxyContin addiction. The tremors have begun to subside. His tense body has begun to relax. He is finally starting to cry less and sleep more.

Robin credits her friends, John and Dee, with helping her get through this ordeal. She now counts Melissa as a friend, too.

“I have Melissa’s personal cell phone number. I call her constantly, and she helps me even when she’s not working,” Robin said. “The support system at Woman’s is truly amazing. Everyone saw how destroyed I was, and they’re helping me through it.”

“You can’t go out into the community and see what we see and not have a heart,” Jill Comeaux, Home Care RN, said. “Without community support for this program, there will be babies who won’t make it.”

## Ty McMains

There are two very special days in his son's life: August 28, Kaplan's birthday, and November 21, the day he went home from Woman's Hospital. For those doing the math, that's an 86-day difference. Even a decade later, Ty McMains will never forget what it felt like to have a child in the Newborn and Infant Intensive Care Unit.

"I'll never forget those sounds in the unit – the dings, the beeps and the buzzes – the sounds of the equipment that kept him alive." Ty said. "We didn't hear Kaplan cry until he was six weeks old."

Weighing just two pounds and one ounce, Kaplan needed a respirator to breathe and a feeding tube to eat. And while some new parents may worry about their baby's heel sticks and immunizations, Ty and his family agonized over Kaplan's surgeries and infections.

"None of our peers experienced this. It was all so foreign to us, not to mention frantic and overwhelming. We relied so much on the caring, compassionate staff at Woman's to get us through such a difficult time."

After Kaplan's release from the NICU, Ty and his family made a significant gift to the NICU to help other children receive the same exceptional care as Kaplan. For the past two years, Ty has served as a volunteer solicitor for the Annual Giving Campaign's Major Gifts division. In addition to being a donor to the Annual Giving Campaign, Ty is also a member of Founders and Friends.

Now 10 years old, Ty describes Kaplan as "the sweetest honor roll student who loves playing sports and being a big brother! I thank Woman's daily for saving his life."

## Anica Doyle

Nothing can stop Anica Doyle. Not even breast cancer. She has an unwavering appreciation for life – and an appreciation for those who are saving hers.

Anica’s “speedbump” (as she chooses to call it) began when she discovered a visible lump in her breast while taking a shower. “It had been about five years since I had my last mammogram, but this lump seemed to have appeared overnight. I was really worried because I knew something wasn’t right.”

Anica drove to a parking lot in Mid-City the next day where she received a mammogram in Woman’s Mobile Mammography Coach, which provides free breast screening services to uninsured women.

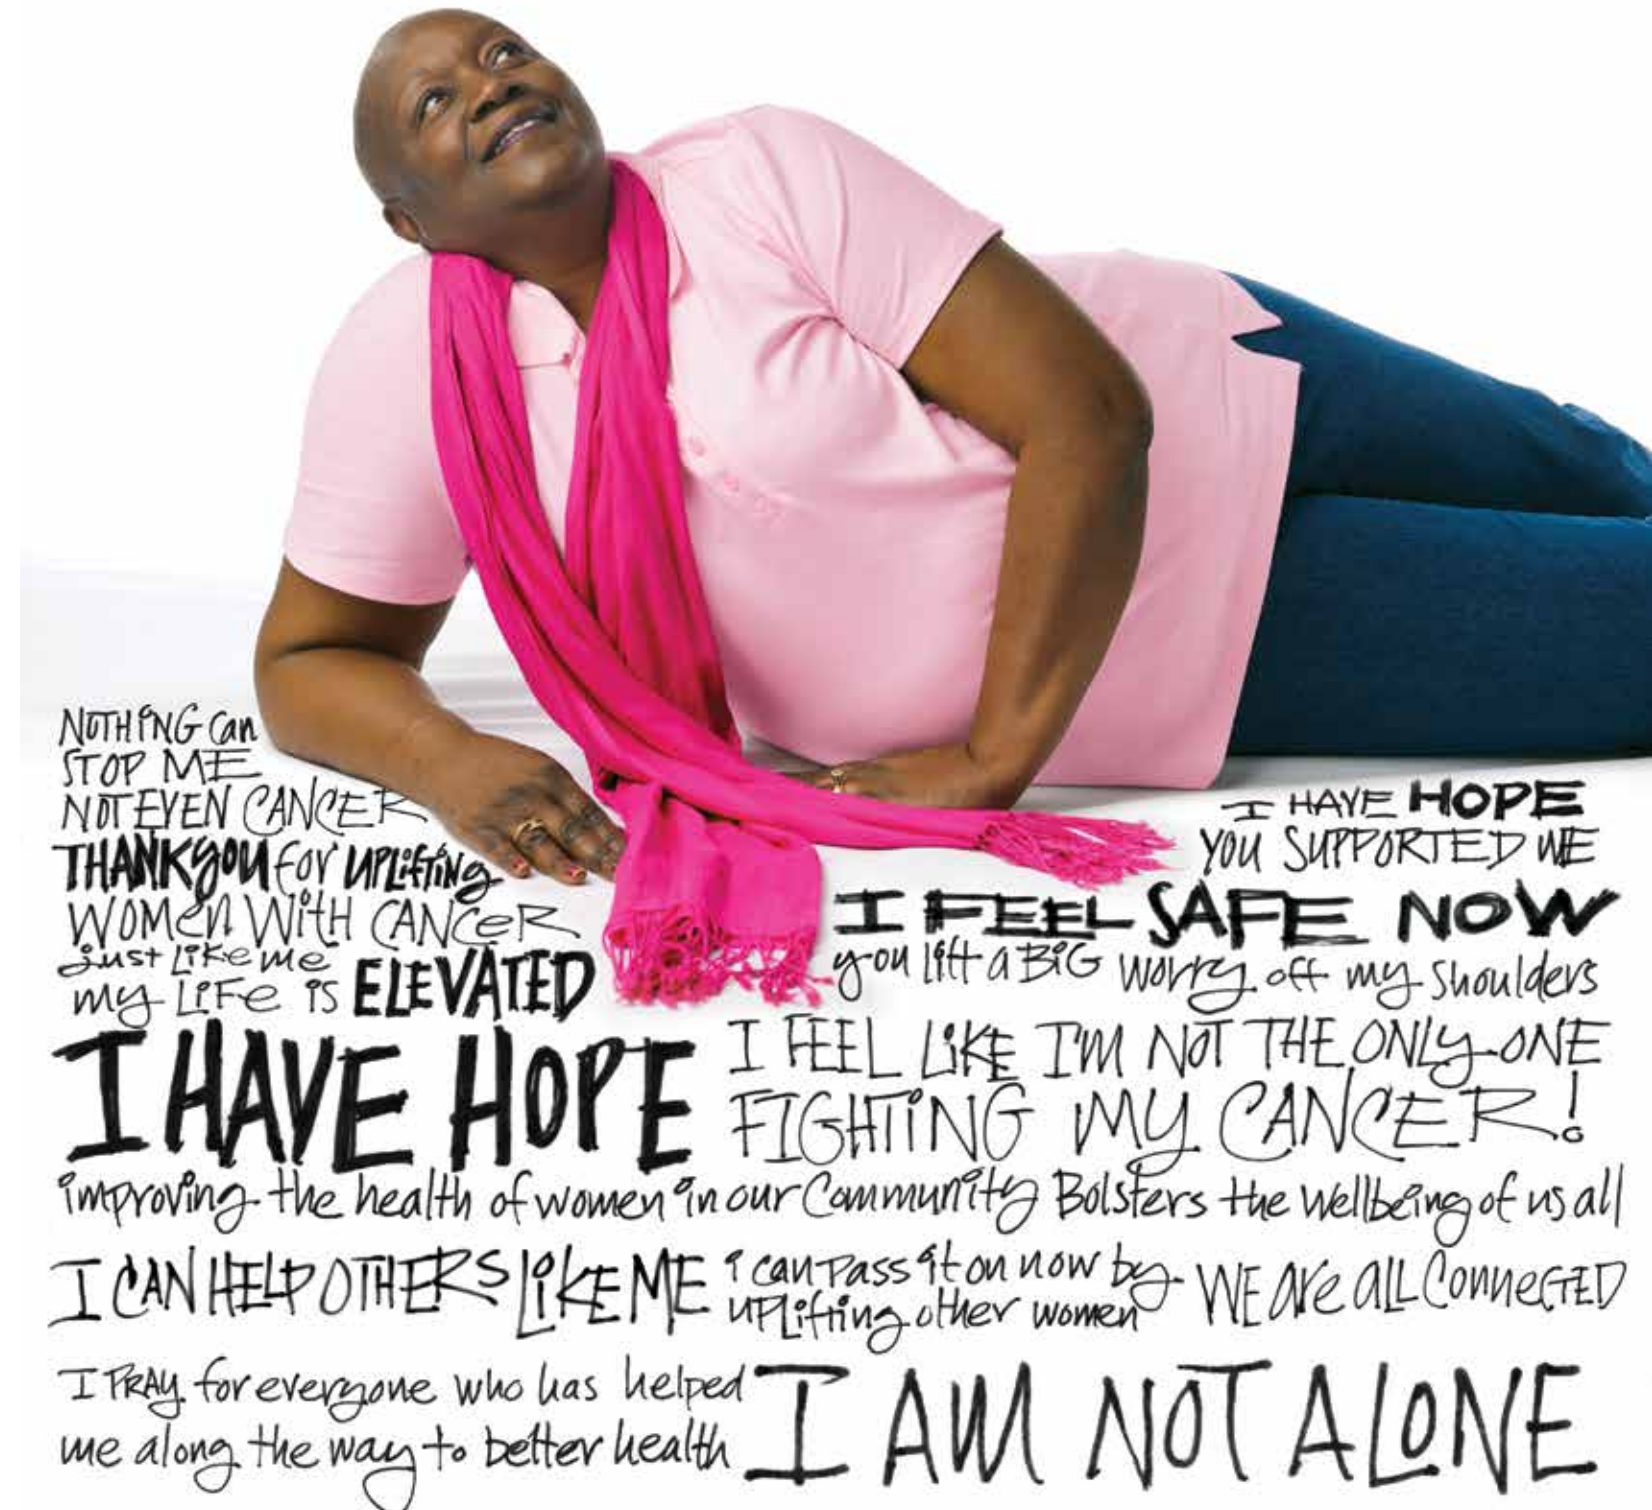

“Everything happened so fast,” she said. “The staff informed me I had cancer, but I felt safe knowing that Woman’s already had the ball rolling from day one.”

That rolling ball includes everything from scheduling appointments with her oncologist to meetings with a registered dietitian to help her better tolerate food during treatment. “Woman’s is taking care of everything. They lifted such a big worry off my shoulders.”

Support groups have also made cancer easier for her. “It’s enlightening to meet women who are breast cancer survivors for more than 30 years. They are doing well. Woman’s gave them hope.”

From the very beginning, Anica has felt like she isn’t the only one fighting her disease. “I include my doctors and nurses in my prayers, and everyone at Woman’s who has helped me along the way. They are my guides through all of this.”

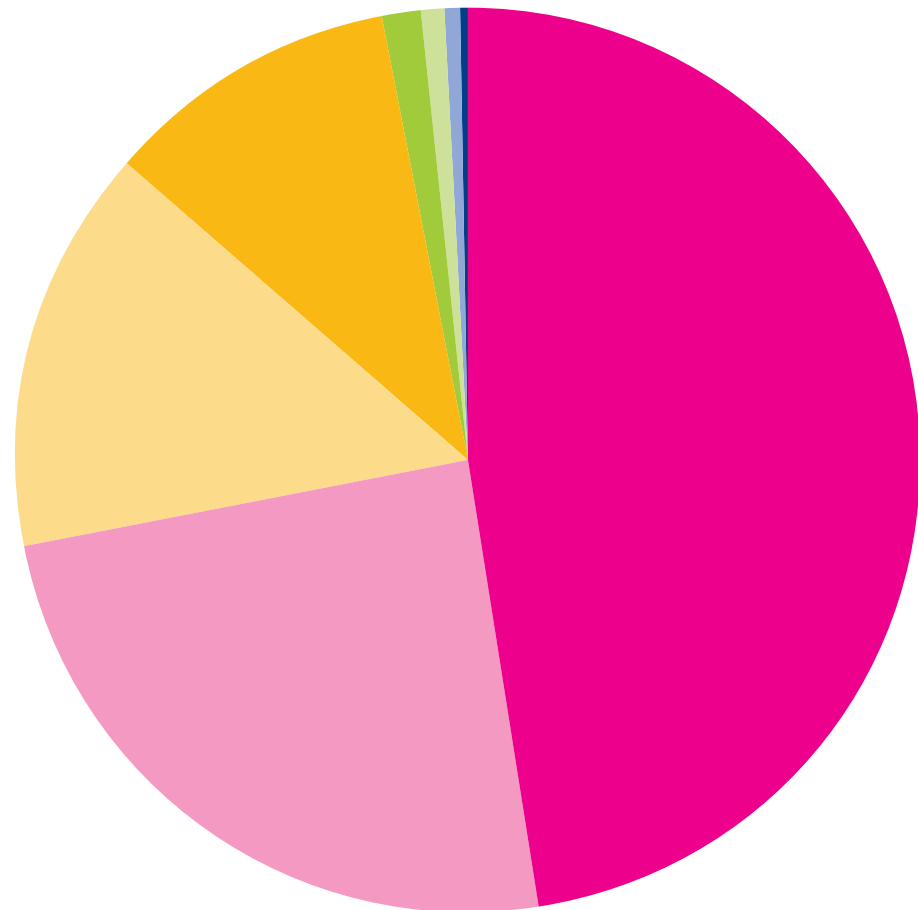

Today, Anica is undergoing chemotherapy, but her real therapy is helping others in her same situation. “It’s so important to uplift other women with cancer. I tell them, embrace your bald head. Connect with people you love. Appreciate your life – and live it!”

**Contributions & Pledges**

- Honor/Memorials \_\_\_\_\_ 1,640
- Founders & Friends Endowment \_\_\_\_\_ 8,901
- Other Sources \_\_\_\_\_ 18,350
- Direct Mail \_\_\_\_\_ 23,203
- WVO \_\_\_\_\_ 185,159
- Grants \_\_\_\_\_ 257,052
- Annual Giving Campaign, including \_\_\_\_\_ 434,333  
Employee Campaign
- New Campus Gifts \_\_\_\_\_ 842,553

**TOTAL REVENUE FOR FY2011 \_\_\_\_\_ 1,771,191**

In 2011—Your Gifts Made an Impact

With the generous help and support from the community, Woman’s was able to provide the following vital services and programs for women and babies in 2011:

**Women:**

- Provided 1,325 follow-up treatment visits for women with gestational diabetes, insulin resistance and pre-diabetes through the Metabolic Health Clinic.
- Provided 13,262 inpatient lactation coaching visits to new mothers.
- Provided treatment for 60 percent of all known sexual assault victims who presented themselves to a healthcare facility in the community for treatment – more than any other hospital in the area.

**Women with Cancer:**

- Screened more than 5,300 women on the Mobile Mammography Coach for breast cancer at 100 locations in 18 parishes. More than 60 percent of the women screened were indigent, and in the rural parishes this increased to 90 percent.
- Provided more than 1,000 inpatient social services visits to women with gynecologic cancer and 141 women with breast cancer.
- Provided 211 inpatient dietary consultations and 143 inpatient nutritional follow-up visits to women with gynecologic or breast cancer.
- Provided support group programs for 152 women living with gynecologic or breast cancer.
- Provided for a breast cancer navigator to guide 210 breast cancer patients through treatment.

**Babies:**

- Made more than 16,000 home health visits, of which over 8,500 were for children. Approximately 40 to 60 percent of these children were underinsured or indigent.
- Provided individualized education and treatment for HIV / AIDS infected pregnant women, resulting in reduced mother-to-child-transmission rates. Since 2005, Woman’s Hospital has not had a positive baby born to a mother enrolled in the Mother-to-Child HIV Transmission Prevention program.

**Care for ALL Women and Babies:**

- Nearly 60 percent of the babies born at Woman’s are to Medicaid recipients – more than double the number born at any other hospital in Louisiana.
- In an effort to meet the needs of all women and babies in our community, Woman’s range of programs and services reached many of the underserved and uninsured. In 2011 alone, these vital community services created a shortage of more than \$27 million.
- Of this shortage, Woman’s provided more than \$17 million in care for Medicaid patients for which there was no reimbursement.

**Community support helped make these programs and services possible.**

## Fiscal Year 2011 Donors. Cumulative giving for the period of October 1, 2010 – September 30, 2011.

**Leadership Donors.** Individuals, corporations, and foundations whose cumulative contributions this fiscal year to Woman's Hospital total \$1,000 or more.

*Pam Parker, volunteer manager, participating in the Susan G. Komen Race for the Cure.*

**New Campus Gifts.** *Woman's New Campus Gifts Initiative* was established to seek philanthropic support from the community to add several critical components back into the new replacement hospital that will further enhance technology, provide an unprecedented patient experience, and, more importantly, help save lives. In 2008, when construction on the new campus was halted due to the economic downturn that affected the nation and our state, fiscally prudent changes through rescaling were made to the size and scope of Woman's original vision to reduce the project budget. Generous philanthropic support will allow us to restore a number of these elements that will add to the healthcare delivery system for women and babies now and in the future.

**Annual Giving.** The Annual Giving Campaign is conducted yearly to raise funds for specific programs and services centered on women, babies, and women with cancer that are meeting vital community needs. These programs are addressing critical health-care issues head-on and serving a significant percentage of Medicaid and indigent patients. Without philanthropic support, these programs are at risk of being reduced or eliminated. Including the Employee Campaign, the Annual Giving Campaign raised over \$419,000.

Jan Parks, Dr. Francis Henderson and Tricia Johnson at the Annual Giving Campaign Kick-off.

Barry and Jon Blumberg, Annual Giving Campaign co-chairs, reveal the amount raised to date at the campaign kick-off.

**Circle of Giving Employee Campaign.** The Employee Campaign gives all hospital employees the opportunity to make a charitable contribution to the hospital. More than 100 hospital employees were involved in planning, organizing, and implementing this philanthropic effort to raise funds to support the Employee Emergency Fund as well as to help fund a number of programs and services meeting critical community needs. With 55.38% participation from employees, the campaign raised over \$77,000.

**Founders and Friends Endowment.** Founders and Friends was established in 1999 to build an endowment to support Woman’s Hospital and its ability for generations to come to improve the health of women and infants. It is comprised of individuals who have made or have notified Woman’s Hospital of their intent to make a planned gift through their estate plans. Donors who have made outright gifts of \$10,000+ to the endowment are also recognized as Founders and Friends.

**Woman's Hospital Foundation.** The hospital is a nonprofit organization that opened in 1968 and was founded by obstetricians and gynecologists who envisioned a hospital that specialized in caring for women and infants. The members of Woman's Hospital Foundation include physicians and community leaders who are dedicated to preserving the hospital's mission.

## *Woman's* Hospital Foundation

Founded in 1968, Woman's is a nonprofit organization, governed by a board of community volunteers, which funds research, community education, and services in order to improve the health of women and infants. Towards this goal, Woman's provides comprehensive services including, but not limited to, pregnancy and childbirth, surgery, cancer treatment and wellness programs. Joint Commission accredited and a Nursing Magnet hospital, Woman's signifies excellence and quality patient care.
