

New growth. Same mission.

Development Annual Report **2012**

Woman's
Hospital
Foundation

About Woman's.

Mission

To improve the health of women and infants

Vision

Together we are building a patient-centered community of extraordinary people and exceptional care

Values

Excellence

Continually improving everything we do

Commitment

Showing pride in, loyalty to, and ownership of the mission of Woman's

Innovation

Securing our future through creating new dimensions of performance

Mutual Respect

Doing unto others as you would have them do unto you

Stewardship

Carefully and responsibly managing the resources of Woman's

Sound Judgment

Making timely decisions based on the information available

Dear Friends,

In the decades since our first seeds were planted in 1968, Woman's Hospital has taken root as one of the largest women's specialty hospitals in the United States. And in 2012, our new growth will help women and infants grow in the years to come.

The move to our new state-of-the-art, family-focused campus went flawlessly. The planning involved in the successful move of 60 women and newborns and 60 NICU babies over a period of 10 hours was monumental and a privilege to witness. Woman's goal in building the new campus was to create an aesthetically pleasing, technologically advanced campus focused on an exceptional patient experience. We hope you will find it so.

Achieving our mission to improve the lives of women and infants would not be possible without tremendous community support and dedicated partners. Thank you for your ongoing friendship and commitment as we work together to ensure a healthy community where all women and their babies thrive and vital healthcare needs are met.

As we look to 2013, we are excited about the future of our community and the future of Woman's. We are blessed to live in such a caring and giving community.

The challenges affecting women and babies in our community and state remain staggering, but community support helps address these problems head-on. Your generosity makes a difference in the lives of women and babies. Philanthropy funds programs addressing such critical issues as low birth weight babies, breastfeeding rates, early detection of breast cancer, gestational diabetes, care for sexual assault victims and HIV transmission prevention. These programs and others are serving a huge percentage of patients in need.

We are very grateful for the support of the many individuals, businesses, foundations and groups whose investment in these programs and services makes a tremendous difference in the health of our community.

Sincerely,

Lynn S. Weill
Vice President, Chief Development Officer

Robert S. Greer, Jr.

Rooted in his community.

Though soft spoken and humble, Robert S. Greer, Jr. is a visionary with the ability to motivate and energize others. People know him to be a man of integrity and impeccable character – a man of his word. That ability is what makes him so successful as a leader in both the private sector and fundraising arena.

Woman's is fortunate on many levels to have Bob as an active volunteer and donor. Bob places a high priority on community involvement wherever his career path has taken him – Chicago, Louisville or back home to Baton Rouge. He gives unselfishly of his time and resources, never asking of others what he does not do himself.

Under his leadership as Development Committee Chair since 2009, Woman's has raised \$5.7M to help fund programs and services meeting critical community needs as well as to help fund a number of initiatives for the new campus. From the beginning, Bob has played a major role in the Annual Giving Campaign and in the New Campus Gifts Initiative by ensuring that the Board of Directors supports these fundraising programs at 100 percent.

A cancer survivor, as is his wife Alice, Bob understands the important role Woman's plays in the health of the women and infants in the community. "Woman's is unique in that it's one of very few hospitals in the country for women and infants. It's a real treasure for our community," he said. "I can't imagine Baton Rouge without this hospital."

As donors to the Woman's New Campus Gifts Initiative, the Greers believe "It took a lot of courage for the founders to move forward, and it's our responsibility to continue their efforts. Philanthropy and volunteerism must play a bigger and bigger role for Woman's in order for it to continue its success."

When asked about Woman's value to the community, Bob replied, "It says a lot about an organization when its employees have been there for 20, 30 and 40 years. Woman's has a wonderful story to tell, and when I tell it, the reaction is always positive."

Bob has served on Woman's Board of Trustees for a number of years, and he looks forward to being chairman of the board next year.

Helen Haymon.

Nourished those in need.

The guiding principle of Helen Haymon's life was the Hebrew phrase "tikkun olam," which means "repairing the world."

One of the longest serving volunteers at Woman's Hospital, Helen, now deceased, was especially suited to repairing the world with good deeds, as she needed help herself as a child. Born in 1918 to Jewish parents who emigrated from what is now Lithuania, she experienced tragedy at just five months old when her mother died from influenza. Unable to care for Helen and her older sister, Helen's father took the two to New Orleans, where they grew up in the city's Jewish Children's Home.

The hardships Helen experienced as a child undoubtedly served as the impetus for her community work as an adult.

"Mother felt a strong calling to help others. Though she was well taken care of in the orphanage, had plenty to eat and received a great education, she had a difficult life. Because of this, I believe she had great empathy for others," said her eldest son, Cordell.

After graduating from LSU, Helen pursued graduate studies in social work at Tulane's Newcomb College. She worked for many years as a social worker with the East Baton Rouge Parish Welfare Department, while raising her five children, Cordell, Brian, Martin, Rachel and Diane.

Helen served Woman's for 43 years of its 44-year history. Woman's campus at Airline Highway and Goodwood Boulevard was located directly across from Helen's home. She always loved babies and children, so volunteering at Woman's was a perfect fit. Known for her one-on-one approach, Helen found her role as a family representative in the surgery waiting area.

"Instead of being angry or rebellious as a result of her early struggles, Helen lived her life from a place of love," said Audrey Walker, Helen's close friend and fellow volunteer for decades. "She was so very eager to share this love with others, and she did tremendously. She was the most wonderful and genuine person I have ever known."

Though Helen died peacefully at her home in May 2010, her legacy is still very much a part of Woman's. Her children wanted to honor their mother in her home away from home, Woman's Hospital. Women needing guidance through difficult situations, including cancer, infant loss and other personal situations, can find the support they need at Woman's Helen G. Haymon Social Services Area.

"She loved Woman's so much. We're so proud to be able to make this donation to the new campus and to have Mother's name associated with such a fine facility as it continues on its path to excellence," Cordell said.

Renée Savoy Harris.

Planted seeds of health.

Dr. Renée Savoy Harris is always on her feet – whether she’s delivering a baby or pounding the pavement. An obstetrician at Woman’s for 25 years, Dr. Harris is also an avid walker and bike rider.

She walks and bikes regularly not only to relax and unwind from her often stressful days, but also for health reasons – which is why she was compelled to generously donate the funds to build Woman’s walking trail.

At one mile long, the walking trail circles Woman’s lake and offers outdoor respite from the busy activity in the hospital. Employees use the trail to burn lunchtime calories, and some even hold meetings while walking. It also allows family members – and their energetic children – a place for fresh air and recess.

“There were a lot of opportunities to leave my mark on this amazing new campus. The walking trail just fit my approach to life. I love everything about the outdoors – sunshine, water, plants, wildlife – and I wanted others to have a place to experience those simple joys in life,” Dr. Harris said.

Dr. Harris encourages her patients to use the walking trail after appointments. “Exercise is important for everyone – including pregnant women.” Her patients can also be seen using the walking trail to get back into shape after having their babies.

“The walking trail isn’t just for our patients and their families. It’s for the entire community, and it feels great when I see people utilizing it.”

Dr. Harris received a Leave a Legacy Award at the National Philanthropy Day Awards luncheon in November 2012 in Baton Rouge for her gift of the walking trail, which she will be funding in large part through a planned gift.

José Guadalupe Martinez.

Sprouted from struggles.

When her first child was finally conceived after 14 long years of trying, Sandra Martinez was overjoyed. As the months of her pregnancy whittled down to weeks, Sandra dreamed of the moment when she could finally hold her little boy in her arms. But that moment came much too soon when little José Guadalupe Martinez was born more than three months premature.

“I felt pain, but I was only 26 weeks pregnant. I did not realize my water broke,” Sandra said.

Sandra was rushed to her local hospital, where her baby was born within half an hour. She was not prepared to deliver her baby so early, much less for her baby to be transferred to Woman’s to fight for his life in Woman’s Newborn and Infant Intensive Care Unit (NICU).

“He was so tiny. He was only two pounds,” she said.

She knew that breastfeeding José would help him to get strong, especially in those first precious weeks, so she started providing her own breast milk for him immediately. She learned the importance of breast milk from her mother, who breastfed Sandra and each of her siblings.

But despite Sandra’s best efforts, her body could not provide enough for José.

Woman’s prides itself on having the latest advancements in medical technology. Though incubators and ventilators are necessities in the NICU, one of the most effective medical tools is also the most basic: mother’s milk.

With philanthropic support, Woman’s began the Human Donor Milk Program in 2011 to accept human donor milk from several licensed human milk banks across the country. Sick and premature babies have better outcomes when fed breast milk. Human milk has been proven to have significant health benefits, especially protection against necrotizing enterocolitis, an often fatal illness that affects the small intestine.

“Woman’s encourages and supports breastfeeding. Unfortunately, there are many reasons why some mothers of premature babies are unable to breastfeed,” said Staci Sullivan, Vice President of Infant/Pediatric Services. “Despite the fact that human donor milk saves lives, Medicaid and private insurance companies do not cover it. With continued philanthropic support, Woman’s Human Donor Milk Program is here to help the tiniest infants in our community.”

Now 5 lbs and 3 oz, José is getting healthier with each passing day. He has moved from an incubator into an open crib and was recently discharged.

“He’s my miracle baby,” Sandra said.

In 2012—Your Gifts Made an Impact

With generous help and support from the community, Woman’s Hospital was able to provide the following vital services and programs for women, babies and women with cancer in 2012:

Women:

- Provided 1,502 follow-up treatment visits for women with gestational diabetes, insulin resistance and pre-diabetes through the Metabolic Health Clinic.
- Provided 16,157 inpatient lactation consultations to new mothers.
- Provided treatment for 41% of all known sexual assault victims who presented themselves to a healthcare facility in the community for treatment—more than any other hospital in the area.

Women with Cancer:

- Screened more than 5,240 women on the Digital Mobile Mammography Coach for breast cancer via 206 trips to 55 locations in 15 parishes, traveling 13,349 miles. More than 50% of the women screened were indigent, and in the rural parishes this increased to 90%.
- Provided 534 inpatient social services visits to women with gynecologic cancer and 286 women with breast cancer.
- Provided 177 inpatient dietary consultations and 130 inpatient nutritional follow-up visits to women with gynecologic or breast cancer.
- Provided support group programs for 162 women living with gynecologic or breast cancer.
- Provided a Breast Cancer navigator to guide 235 breast cancer patients through treatment, including 687 navigator encounters.

Babies:

- Made more than 12,620 home health visits, of which over 7,300 were for children. Approximately 50–60% of these children were underinsured or indigent.
- Provided individualized education and treatment for HIV/ AIDS infected pregnant women resulting in reduced mother-to-child transmission rates. Since 2005, Woman’s Hospital has not had an HIV-positive baby born to a mother enrolled in the Mother-to-Child HIV Transmission Prevention Program.

Care for ALL Women and Babies:

- Nearly 55% of the babies born at Woman’s are to Medicaid recipients.
- In an effort to meet the needs of all women and babies in our community, Woman’s range of programs and services reached many of the underserved and uninsured. In 2012 alone, these vital community services created a shortage of more than \$28.8 million.
- Of this shortage, Woman’s Hospital provided more than \$21 million in care for Medicaid patients for which there was no reimbursement.

Community support helped make these programs and services possible.

Community Giving

Fiscal Year 2012 Donors. Cumulative giving for the period of October 1, 2011 – September 30, 2012.

Leadership Donors. Individuals, corporations, and foundations whose cumulative contributions this fiscal year to Woman's Hospital total \$1,000 or more.

A newborn being swaddled for the move

Receiving newborns at the new campus

New Campus Gifts. *Woman's New Campus Gifts Initiative* was established to seek philanthropic support from the community to add several critical components back into the new replacement hospital to further enhance technology, provide an unprecedented patient experience, and, more importantly, help save lives. In 2008, when construction on the new campus was halted due to the economic downturn that affected the nation and our state, fiscally prudent changes through rescaling were made to the size and scope of Woman's original vision to reduce the project budget. Generous philanthropic support has allowed us to restore a number of these elements that add to the healthcare delivery system for women and babies now and in the future. Listed here as of publication date:

Frank and Kathy McArthur,
New Campus Gifts Initiative co-chairs

Champion (\$250,000 - \$499,999)

Annual Giving. The Annual Giving Campaign is conducted yearly to raise funds for specific programs and services centered on women, babies, and women with cancer that are meeting vital community needs. These programs are addressing critical healthcare issues head-on and serving a significant percentage of Medicaid and indigent patients. Without philanthropic support, these programs are at risk of being reduced or eliminated. Including the Employee Campaign, the Annual Giving Campaign raised over \$480,000.

Employee Giving Campaign. The Employee Campaign gives all hospital employees the opportunity to make a charitable contribution to the hospital. More than 100 hospital employees were involved in planning, organizing, and implementing this philanthropic effort to raise funds to support the Employee Emergency Fund as well as to help fund a number of programs and services meeting critical community needs. With 49% participation from employees, the campaign raised over \$100,000.

Founders and Friends Endowment.

Founders and Friends was established in 1999 to build an endowment to support Woman's Hospital and its ability for generations to come to improve the health of women and infants. It is comprised of individuals who have made or have notified Woman's Hospital of their intent to make a planned gift through their estate plans. Donors who have made outright gifts of \$10,000+ to the endowment are also recognized as Founders and Friends.

Woman's Hospital Foundation. The hospital is a nonprofit organization that opened in 1968 and was founded by obstetricians and gynecologists who envisioned a hospital that specialized in caring for women and infants. The members of Woman's Hospital Foundation include physicians and community leaders who are dedicated to preserving the hospital's mission.
