

Find Your Pediatrician

When expecting your first baby, choosing your child's pediatrician is just one of the many important decisions you will make. Visit the Meet the Pediatricians area at Baby Grand to speak to local physicians and discuss the topics that matter to you. Whether you have an established pediatrician or not, we hope these examples help inspire your own questions.

- Are you currently accepting new patients?
- Do you accept my insurance plan?
- How are after-hour illnesses handled, including Saturdays and Sundays?
- Can I get a same-day appointment if my child is sick?
- As a parent, how am I involved in deciding on my child's care?
- What is your approach to breastfeeding? How do you support breastfeeding and help parents navigate common feeding challenges?
- Does your clinic have multiple locations?
- What is the best way to contact you, especially during an emergency?
- What signs or symptoms could indicate my newborn needs to be seen by a pediatrician?
- What are the most important over-the-counter medications and supplies parents should have at home for a newborn?

We encourage you to write your questions down and consult with your pediatrician or bring them to Baby Grand!
